Raw material

EXCELLENT SWEATER LIMITED

Raw material is the most important element in the creation of a best product. We deal with almost all type of yarn starting from natural fibers like wool, woolen blends, cotton, cotton blends to man made fibers like viscose, nylon, acrylic and their blends. Based on deliveries and quality preferences, we have been sourcing yarn from Bangladesh, China, Taiwan, Italy etc.

Trims & accessories are being sourced from buyer's nominated suppliers or from those who adhere to all product safety norms and are globally accepted.

Quality Assurance

ESL has its own well tested quality assurance system to make top quality sweaters. Our quality assurance & efficiency monitoring system in all the garments manufacturing process designed to reduce the product rechecking options as well as help us to identify operators who could require more training to improve his or her skill ness in the respective section. We render a physical and chemical test on raw materials by a reputable textile testing laboratory to make sure its flawless character right at the beginning. Our QA team carries out final inspection of the packed goods based on AQL to ensure good quality products.

Production

EXCELLENT SWEATER LIMITED

Sweater is no longer warmth apparel. Sweaters taking over a major share of woven & knits apparel. Nowadays it's a fashion statement. People are now more towards flat knits then it was in early days. The comfort and variety of designs in flat knits has given a new direction to flat knit industry. Now sweaters are being used as outerwear & casual wear. We are ready to do any kind of silhouettes like halter, tank top to coats and jackets. We have got expertise to do plaiting with lycra to give a proper shape to the fitted garments. Styles with embroidery and printing are some added value addition to our range. We are doing acid wash, Enzyme Wash, Distress look sweaters - the most recent trend in fashion. We are catering almost all segment of the market from kids wear to adult.
